

LAURA POGGIOLI-MARANIELLO  
**LA RELOCATION**

**A SUCCESSFUL CHALLENGE**  
*by Laura Poggioli Maraniello*

"I could introduce myself trying to summarize my professional background, writing about how I put all my energy and heart into this project, but I would rather have the chance to meet you in person and tell you about my story.

I'm really dedicated and passionate about my job and I truly believe in what I do. In the past years I had the chance to improve my professional skills and to turn into action my willingness to create a value to the world through my work. My personal vision of supporting people, families, but also small and medium-sized enterprises during their relocation process is based on a transparent and smooth business approach. My aim is to make my customers life easier, and their relocation process a pleasant and stress-free journey. Problem solving is one of my key skills, and I like to think that my professional approach, combined to the capacity to deeply understand and connect to my customers needs, is what makes me a trustworthy and reliable advisor, as well as the ideal partner for everyone who choose to rely on our services, starting a solid and long-term collaboration with us.

Thank you for trusting us, I hope we'll be able to meet soon.

**Laura Poggioli Maraniello**
